GREEN DO NOT USE FINS TOXIC SUNSCREEN

Some chemical components in sunscreen, including OXYBENZONE, OCTINOXATE, NANO ZINC OXIDE AND NANO TITANIUM DIOXIDE,

can have a negative impact on the environment.

ALWAYS CHECK THE

DO NOT RELY ON CLAIMS LIKE "REEF-SAFE". THIS IS NOT BACKED BY SCIENCE.

Only <u>NON-NANO</u> zinc oxide or titanium dioxide UV filters are known to have no environmental impact. Look for them in the active ingredients list.

SUNSCREEN

8 FL. OZ (235 ML)
